### Wonderful property with beautiful mountain

A wonderful property, that functions like a small "Boutique Hotel," divided in 2 buildings, with the commercial side that features 12 rooms and a family house. Besides the main house where the rooms are located, there's a restaurant, a bar and the "Biergarten," (beer garden). There is also a small house with 3 bedrooms, surrounded by flowered terraces and orchards. It's located in the heart of the "Monchique" mountain, surrounded by breathtaking scenery and heavenly calmness. Definitely a place worth visiting!
