Villas in Meia Praia

This opportunity consists of three properties, which despite being sold together, there is also a possibility to sell them each individually. A major feature to the properties are the superb views over the sea to the city of Lagos. Meia Praia maintains strict housing conditions, and although the houses require complete renovation, the opportunity here is endless to either remodel all the units, or have 1 large villa in a awesome location offering amazing views. Viewing of the property is highly recommended, so that you can appreciate the vast size and possibilities available here.
