PROPERTY IN THE NATIONAL FOREST - SW COAST

This property could be an exciting project for someone with imagination and vision. This is a large piece of national forest- almost 20 acres (6.8 ha) with a number of existing buildings which comprises of a commercial building, once a very popular restaurant regarded as one of the most unique in the Algarve with a loyal customer base; a service building for staff which is now a comfortable studio; as well as a 3 bedroom detached house that was used as the family home.

The commercial space must be retained and requires the new owner to consider it for touristic purpose. A project for rural tourism is probably the way to go and this opens up potential to either be a restaurant again or possibly a glamping site, or retreat in an area that is already popular for such activities
