

TOWNHOUSE TO RENT IN LAGOS | Ref: Casa Museu

3,035 €

Casa Museu

A truly amazing find and a gem, in the heart of Lagos. Its location lends the name to this four bedroom town house as just a couple of doors down is the "Igreja do Santo Antonio" - no longer a functioning church, it is a museum which along with its goldenbaroque chapel, is one of the historical monuments you must see when visiting Lagos

As with so many houses in Lagos, the curb side impression of the house does not prepare you for what you will find inside. Decorated with love, using a mixture of eclectic modern and vintage pieces and with both Portuguese and Scandinavian influences, you might well feel like you have walked into a photoshoot for a House & Garden magazine.
